PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building modern web applications using PHP, Laravel, React, MySQL, and Tailwind CSS. Experienced in developing RESTful APIs, authentication systems, CRUD applications, responsive user interfaces, and database-driven systems.

Skilled in both backend and frontend development, with a strong focus on creating scalable, user-friendly, and maintainable applications. Recently developed and deployed a full-stack Job Portal application using Laravel API backend and React frontend, strengthening expertise in component-based architecture, API integration, and modern UI/UX practices.

Passionate about continuous learning, problem-solving, and building impactful digital experiences through clean and efficient code.

TECHNICAL SKILLS

Languages: PHP, JavaScript, Python, C

Frontend: React, Tailwind CSS, HTML5, CSS3, Bootstrap, jQuery

Backend: Laravel, Livewire, REST APIs, Authentication Systems, CRUD Operations

Database & Tools: MySQL, ORM, Git, GitHub, Postman

Concepts: MVC Architecture, Client-Server Architecture, HTTP, JSON, Ajax, Fetch API

PROFESSIONAL EXPERIENCE

Cut the Mustard (Holdings) Limited – Stoke-on-Trent, England

Web Developer | Sep 2023 – Sep 2025

- Developed and maintained web applications using Laravel, improving system functionality, performance, and user experience.
- Built and enhanced backend features, database-driven modules, and user-focused functionalities for client projects.
- Maintained and optimized WordPress websites by implementing new features, improving security, and ensuring system reliability.
- Diagnosed and resolved technical issues efficiently, contributing to stable deployments and improved client satisfaction.
- Collaborated within development teams using problem-solving and analytical thinking to deliver high-quality solutions.

PROJECTS

Job Portal Application (Full-Stack Project)

- Developed a full-stack Job Portal platform using Laravel API backend and React frontend.
- Implemented authentication, protected routes, CRUD operations, image uploads, pagination, reusable React components, and responsive UI design.
- Designed modern user interfaces using Tailwind CSS and improved frontend architecture through reusable components and state management.
- Deployed full-stack applications using modern cloud hosting platforms and managed frontend-backend integration workflows.

EDUCATION

Staffordshire University – Stoke-on-Trent, England

Master of Science in Software Engineering | 2023
